Comments Regarding Pricing Strategy

The above value is given as the current value of the home and that is could be sold in it's as-is condition. The values in this area have been affected by the rate increases, devaluing as much as 10%, but there is still a lack of inventory. The location is very much like that of the subject, due to the lack of sales and active listings the comps were taken within a radius of one half mile. The neighborhoods are all the same in makeup and condition. The square footage is also in a comparable range as are the bedroom and the bathroom counts. Lot sizes are within a range making them comparable to that of the subject. The market is shifting faster than the comps are showing. With the values of smaller sqft homes in this area devaluing as much at 5-20% over the last 6 months. Over the past 5 months the builders have become very flexible in pricing, offering monies to buy down the interest rates, and commissions over 3%+. REOS postings for trusteed sales have increased in this area. The subject is in a condition that will not require any repairs to be marketed in it's as-is condition and received full market consideration.
