Exterior-Only Inspection Residential Appraisal Report

	This report is intended for use only by the client named on this report or their assigns. Use of this report by others is not intended by the									
	appraiser.									
	Subject Property Characteristic:									
	The subject is a Two Story 4 bedroom, 3.0 bathroom, SFR home with a 3 car attached garage on a 5,751 square foot per the Clark County									
	ssessor's office. Due to the appraisal report being done as a drive by appraisal the photos of the subject has only a front and street scene.									
	The rear photo is left blank due to no access to the rear.									
	Exterior Features Include:									
	Covered Porch, Covered Patio, In ground Pool									
10	Interior Features Include:									
COMMENTS	None noted due to the appraisal is completed as a 2055 Exterior									
COMI	Market Area:									
I AL	Subject is located in the Southwestern portion of the Las Vegas Valley	All employment centers, schools, community centers and shop	ping							
<u>6</u>	facilities are within typical, market expected proximity. There is no appar	ent and measurable evidence of adverse locational factors which	might							
ADDITIONAL	adversely affect marketing or value. The subject property and all comparables are located in SFR subdivisions with no external obsolescences noted in this area.									
	Sale Comparison Analysis:									
	All sales are from the subject's competitive market area and have simil	ar market influences.								
Sale 1: Was listed for \$619,900, on the market for 49 CDOM and sold for \$610,000 with \$500 in concessions. It was adjusted so bath count. It was adjusted inferior for gross living area and no pool.										
Sale 2: Was listed for \$599,000, on the market for 43 CDOM and sold for \$590,000 with no concessions. It was adjusted condition and bath count. It was adjusted inferior for gross living area.										
	Sale 3: Was listed for \$580,000, on the market for 67 CDOM and sold for \$565,000 with \$4,000 in concessions. It was adjusted inferior for gross living area.

Borrower Catamount Properties 2018 LLC

Property Address 9701 Casper	Peak Court					
City Las Vegas	County	Clark	State	NV	Zip Code	89117
Lender/Client Wedgewood Inc	;	Address 2015 N	Manhattan Beach	Blvd Suite 100). Redondo Bead	h. CA 90278

GLA was adjusted at \$50.00 per square foot differences over/under 100sf. Bathroom count was adjusted at \$5,000 per half bathroom differences.

Adjustments:

Adjustments were made only for significant and supportable items. Not all dissimilarities require adjustment because not all dissimilarities achieve price differentials in the market. If no adjustment was made for differences, either an adjustment was not warranted as the differences were minimal or an adjustment was not made because there was no market evidence found to support one.

A market conditions adjustment was not made to the comparables as they are all recent sales. This is sometimes referred to as a 'time' adjustment, however it is not time that necessitates the adjustment but rather shifts in the market. An adjustment was not made to the listings and / or pendings and / or contingent sales as the list price to sale price ratio is 100% for the area.

If a property that has not closed (active, contingent, or pending sale) has been included as a comparable, the sales price reported is actually the most recent list price. Concessions have been adjusted for on a dollar for dollar basis. Adjustments have been derived via one or more of the following methodologies: paired sales analysis, sensitivity analysis, interviews with market participants, group data analysis and historical paired sales analysis.

COST APPROACH (Pg. 5, Cert. 4): Is applicable when improvements are new, near new or are of an unusual construction method. This method is appropriate when sufficient land or building sites, etc. are available to a potential purchaser to make construction of improvements similar to the subject, a viable alternative to purchasing the subject. In areas where vacant sites (similar to the subject property in location, zoning, use and utility) are not available to a potential purchaser, use of the cost approach and reliability on the same as a value indicator could be misleading. When the Cost Approach is not required (per USPAP) or deemed necessary to the development of a reliable value opinion, the cost approach is not appropriate, excluded and such exclusion has been so stated with the body of the report.

If the cost approach was used, it represents the "replacement cost estimate", and is for "valuation purposes only" and should not be relied upon for insurance purposes. The definition of "market value" on page 4 of this report is not consistent with the definition of "insurable value". If the cost approach was presented, a service such as "Marshall & Swift" (or similar source) was used to develop the estimate. The site value opinion results from extraction, allocation, the developmental method or from a review & analysis of sales of similar sites within the market area.

INCOME APPROACH (Pg. 5, Cert. 4): Is applicable when sufficient investor owned properties exist with the subject's immediate area or neighborhood and when investors regularly acquire such properties that are similarly marketable to the subject for the express purpose of the income they provide. While rentals may exist in any area, their presence alone is not proof of a viable rental and investor marketplace. As such, in areas dominated by "owner occupied" units, it may be inappropriate to employ the income approach, unless the approach clearly represents the motivations and actions of investors in the marketplace as it relates to the subject property. If the approach is included, available data supported conclusions by the appraiser(s) that it was meaningful to the analysis and value opinion. If the approach was not included, it was the appraiser's opinion that the data was insufficient to provide a meaningful conclusion.

All three approaches to value were considered in this appraisal. The income approach was not included due to the lack of essential data. The cost approach was not used due to the lack of inspection of the subject property, the subject's age, and rapidly changing construction costs, it is deemed not possible to obtain a credible result. The market approach is given all weight as it most accurately reflects the actions of buyers and sellers in the market.

Highest & Best use Analysis

The subject site was analyzed as if vacant and as currently improved in order to establish the highest & best use. Both analyses have proven that the site meets the four basic criteria: legally permitted, financially feasible, physically possible, and most profitable. The present use of the subject site is

legally permitted, financially feasible, physically possible, and most profitable. The present use of the subject site is considered to be the highest & best use

Nevada Mandatory AMC Appraisal Fee Disclosure Requirement:

The Nevada Legislature passed A.B. 287, which was signed by Governor Gibbons on May 29, 2010. Effective April 20, 2010, Regulation 091-09 (codified as am amendment to Chapter 645C of Nevada Administrative Code) requires disclosure within the body of the appraisal report, as a dollar amount, the total compensation paid to the appraiser who performs the appraisal services and the total compensation retained by the Appraisal Management Company for its services associated with the management of the appraisal process.

The appraiser's fee is \$235.00. The AMC fee is \$425.00 ClearCapital.com, Inc. AMC.0000143

Exposure Time:

Per USPAP, is the estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.

Subject's Exposure Time: Under 3 Months.

Correlation:

With most consideration placed on the sales comparison approach, I have correlated the final market value for the subject property is \$585,000 which indicates \$196.44 per square foot of living area, which is within the range as indicated by the sales in this report.

Exterior-Only Inspection Residential Appraisal Report

File No. Case No. 35638634 57742

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Exterior-Only Inspection Residential Appraisal Report

File No. Case No 35638634 57742

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

Exterior-Only Inspection Residential Appraisal Report Case No.

35638634 57742

- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

UNIFORM APPRAISAL DATASET (UAD) Property Condition and Quality Rating Definitions

File No. Case No. 35638634 57742

Requirements - Condition and Quality Ratings Usage

Appraisers must utilize the following standardized condition and quality ratings within the appraisal report.

Condition Ratings and Definitions

C:1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. It's estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C.4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability are somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Ω4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

05

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Ω6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Requirements - Definitions of Not Updated, Updated and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components meet existing market expectations. Updates do *not* include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.

MARKET RESEARCH & ANALYSIS

Art Valdovinos **MEDIAN PRICE - BROKEN DOWN**

File No. 35638634 Case No. 57742

Catamount Properties 2018 LLC

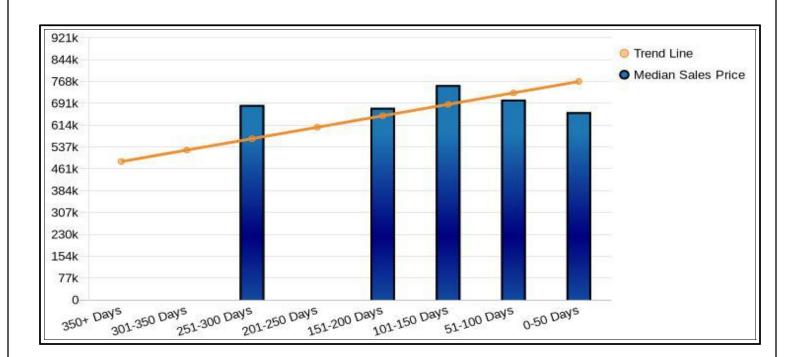

Property Address	9701 Casper Peak Court					
City Las Vegas	Count	/ Clark	State	NV	Zip Code	89117
Lender/Client V	Vedgewood Inc		Address 2015 Manhat	tan Beach Blvd Sui	te 100, Redondo Beacl	n, CA 90278

City Las Vegas	1	County	Clark	State	NV	Zip Code	89117
Lender/Client	Wedgewood Inc	·	Address	2015 Manhattan B	each Blvd Suite 10	00, Redondo Beach, C	A 90278
	·						

MEDIAN PRICE BROKEN INTO MARKETING TIME (DAYS ON MARKET)

Days On Market	Median Price		
0-50 Days	\$659,750		
51-100 Days	\$704,000		
101-150 Days	\$755,000		
151-200 Days	\$675,000		
201-250 Days	\$0		
251-300 Days	\$685,000		
301-350 Days	\$0		
350+ Days	\$0		

The table displays the market's change in median sales price over the past year.

This chart shows the relationship between marketing time (how long a property is left on the market) and sales price.

This chart is especially useful for determining typical marketing times and how long it will take to sell for a given price.

Art Valdovinos TIME ADJUSTMENT FACTOR

File No. 35638634 Case No. 57742

Borrower Catamount Properties 2018 LLC

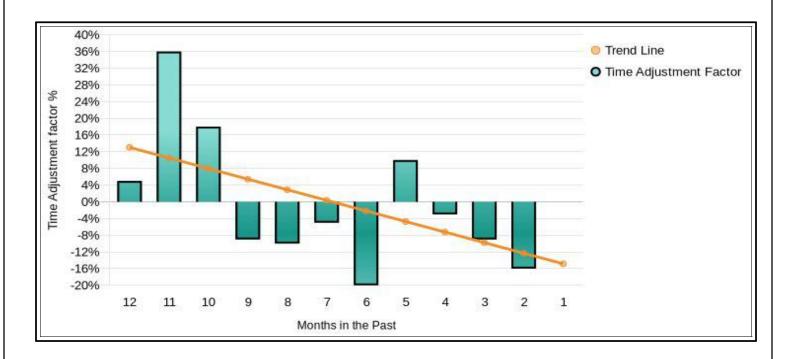

Property Address	9701 Casper Peak Court					
City Las Vegas	County	Clark	State	NV	Zip Code	89117
Lender/Client V	Vedgewood Inc	Address	2015 Manhattan E	Beach Blvd Suite 10	0, Redondo Beach, C	CA 90278

TIME ADJUSTMENT FACTOR BY MONTH FOR THE LAST 12 MONTHS

Time Period	Median Sales Price	Current Month's Median	Time Adjustment Factor
12 Months Ago	\$645,000	\$680,000	5%
11 Months Ago	\$499,000	\$680,000	36%
10 Months Ago	\$575,000	\$680,000	18%
9 Months Ago	\$750,000	\$680,000	-9%
8 Months Ago	\$755,000	\$680,000	-10%
7 Months Ago	\$713,500	\$680,000	-5%
6 Months Ago	\$850,000	\$680,000	-20%
5 Months Ago	\$617,500	\$680,000	10%
4 Months Ago	\$703,500	\$680,000	-3%
3 Months Ago	\$750,000	\$680,000	-9%
2 Months Ago	\$810,000	\$680,000	-16%
Current Month	\$680,000	\$680,000	0%

The table displays the market's change in median sales price on a monthly basis.

TIME ADJUSTMENT FACTOR BY MONTH FOR THE LAST 12 MONTHS

Notes:

- (*) Data is not available for this period. The time adjustment factor of the previous month will be applied.
- (**) When the time adjustment factor is greater than 100%, the value on the graph is limited at 100%.
- (***) When the time adjustment factor is less than -100%, the value on the graph is limited at -100%.
- (****) The Current Month's Median has been derived from 2 and 3 current months.
