| <p>As per tax record, subject appears to have an additional building with 576 sqft (estimated market value of \$17280). Searched comps within 0.50 mile radius from the subject and 6 months back for comparable sale. There is not enough listing and sold comps within the area, expanded proximity to 1 mile and 12 months back for comparable sales. The ones used are the best possible currently available comps and the adjustments are sufficient for this area to account for the differences in the subject and comps. Due to limited similar comparable, it was necessary to include those properties that may exceed the lot size, GLA and age variance. The comps however are valuable and bracket the subject well in terms of distance, condition and size. The subject was strategically priced mid-market because all homes were of similar GLA, age, style, and lot utility. No extraordinary characteristics were noted to price low or high.</p> |                    |                       |
