 This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended user, intended user, definition of market value, statement of assumptions and limiting conditions, additions, or deletions to the intended user, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: to the following assumptions and limiting conditions:

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high-level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

03

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Ω4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.

GENERAL ADJUSTMENTS HAVE BEEN MADE FOR MARKETING TIME, LOT SIZE, CONDITION, SQUARE FOOTAGE, EMPTY POOL, SOLAR, GARAGE, FIREPLACE AND BONUS ROOM, ALL ADJUSTMENTS ARE CONSIDERED TYPICAL FOR THE MARKET REACTION WITHIN THE SUBJECTS MARKET AREA.

NO ADDITIONAL VALUE WAS GIVEN FOR THE SUBJECTS EMPTY POOL SINCE IT MAY NOT WORK. SALES COMPARISON COMMENTS (CONTINUED):

COMPARABLE NUMBER SIX EXCEEDS THE TYPICAL 15% NET ADJUSTMENTS DO TO THE DIFFERENCE IN LOT SIZE, CONDITION, BEDROOM COUNT AND SQUARE FOOTAGE. THE APPRAISER FELT IT WAS NECESSARY TO USE SINCE IT IS SIMILAR IN BATHROOM COUNT, GARAGE, CLOSE IN PROXIMITY AND IS A RECENT SALE. THE SALES PRICES OF THE COMPARABLE PROPERTIES ARE A BIT WIDE, HOWEVER THE

COMPARABLES USED ARE THE BEST INDICATORS OF MARKET VALUE AVAILABLE IN THE SUBJECT PROPERTIES MARKET AREA.

ALL OF THE COMPARABLES WITHIN THIS REPORT WERE LISTED ON THE MLS AND APPEAR TO BE ARMS LENGTH TRANSACTIONS.

FINAL RECONCILIATION COMMENTS:

THE MARKET DATA IS SUFFICIENT TO DETERMINE WITH REASONABLE CERTAINTY THE VALUE OF THE SUBJECT PROPERTY. THE APPRAISER HAS RESEARCHED THE SUBJECT MARKET AND SELECTED THE SALES MOST SIMILAR AND PROXIMATE, WHICH HAVE CLOSED ESCROW IN THE MOST RECENT PAST AND REQUIRED THE LEAST AMOUNT OF ADJUSTMENTS.

THE COST APPROACH TENDS TO SET THE UPPER LIMITS OF VALUE; THE INCOME APPROACH IS NEITHER APPLICABLE NOR RELEVANT TO SINGLE FAMILY PROPERTIES AND CONDOMINIUMS; THE SALES COMPARISON APPROACH IS CONSIDERED TO BE THE BEST INDICATOR OF VALUE. THE LATTER APPROACH REFLECTS RECENT ACTIVITY IN THE MARKETPLACE AND IS GIVEN THE MOST INFLUENCE IN ESTIMATING VALUE. THE FINAL RECONCILIATION IS A WEIGHING PROCESS BASED UPON INFORMATION OBTAINED FROM DOCUMENTARY SOURCES AND THE MARKETPLACE, AS THEY APPLY TO THE SUBJECT PROPERTY.

MORE WEIGHT AND CONSIDERATION WAS GIVEN TO COMPARABLES NUMBER ONE AND TWO SINCE THEY ARE THE MOST SIMILAR CLOSED COMPETING SALES WITH THE LEAST AMOUNT OF ADJUSTMENTS. SLIGHTLY LESS WEIGHT AND CONSIDERATION WAS GIVEN TO COMPARABLES NUMBER THREE, FOUR AND FIVE SINCE THEY ARE THE NEXT MOST SIMILAR CLOSED COMPETING SALES. LESS WEIGHT AND CONSIDERATION WAS GIVEN TO COMPARABLE NUMBER SIX SINCE IT IS THE LEAST MOST SIMILAR CLOSED COMPETING SALE. LESS WEIGHT AND CONSIDERATION WAS GIVEN TO COMPARABLE NUMBER SEVEN SINCE IT IS AN ACTIVE LISTING AND THE FINAL SALES PRICE HAS NOT BEEN DETERMINED YET.

THE APPRAISER IS AWARE THAT THE APPRAISED VALUE IS ABOVE THE MOST RECENT SALES PRICE HOWEVER THE APPRAISED FELT THE SUBJECT WAS LISTED TOO LOW. THE SELLER ACCEPTED AN OFFER THE DAY THE PROPERTY WAS LISTED FOR \$17,000.00 OVER THE LOW LIST PRICE.

ADDITIONAL COMMENTS:

THE SUBJECT WAS NOT APPRAISED AT THE PREDOMINANT PRICE FOR HOMES IN THIS AREA. IT IS NOT UNCOMMON FOR THIS TYPE OF HOME TO BE IN THE LOWER RANGE OF MARKET VALUE AND NOT BE CONSIDERED AN UNDER IMPROVEMENT. THIS HAD NO ADVERSE EFFECT ON THE SUBJECTS VALUE OR MARKETABILITY.

THE OWNER OF PUBLIC RECORD IS CURRENTLY LISTED AS UNKNOWN. ACCORDING TO THE MLS, THE SUBJECT PROPERTY RECENT SOLD (07/10/2024) AND THE NEW OWNER OF PUBLIC RECORD IS NOT UPDATED YET. THE SUBJECTS NEW OWNER NAME HAS NOT UPDATED ON PUBLIC RECORDS YET.

• URAR : Neighborhood - Market Conditions

GENERAL MARKET CONDITIONS ARE AVERAGE WITH RECENTLY RISING RATES. SELLER FINANCING AND CONCESSIONS HAVE LITTLE OR NO EFFECT ON SALES PRICE. CURRENT LISTINGS ARE AVAILABLE IN THE IMMEDIATE AREA AND MARKETING TIME APPEARS TO BE WITHIN 3 MONTHS. THERE WERE 173 SALES IN THE SUBJECT PROPERTIES MARKET AREA OVER THE LAST 12 MONTHS. THE MEDIAN DAYS ON MARKET FOR THE 173 SALES WAS 14 DAYS.

• Exterior-Only: Subject - Data Source(s), Offering Price(s), Date(s)

• Exterior-Only: Sales Comparison Analysis - Prior Sale or Transfer History Analysis

THE SUBJECT PROPERTY TRANSFERRED TWICE WITHIN THE LAST 36 MONTHS AND NONE OF THE COMPARABLE PROPERTIES HAVE TRANSFERRED WITHIN 12 MONTHS OF THE TRANSACTION DATE LISTED. THE SUBJECT ALSO TRANSFERRED ON 06/27/2022 FOR A SALES PRICE OF \$575,000.00. THE SUBJECTS PRIOR TRANSFER ON 06/27/2022 DOES NOT APPEAR TO BE AN ARMS LENGTH TRANSACTION AS IT WAS NOT LISTED ON THE MLS OR ANY OTHER PUBLIC LISTING. THE SUBJECTS MARKET AREA ALSO INCREASED IN VALUE SINCE THE PRIOR SALE ON 06/27/2022. THE SUBJECTS MOST RECENT LISTING IS BELOW THE APPRAISED VALUE SINCE IT WAS LISTED TOO LOW AND SOLD TOO FAST.
