<sup>\*</sup> Listing 2 is the most comparable listing to the subject.

Listing Comments Why the comparable listing is superior or inferior to the subject.

- **Listing 1** This comp is good in terms of proximity, GLA is slightly larger and superior which is why I didn't use it as the main comp. Age and lot size are both comparable.
- **Listing 2** This comp was the best comp in terms of GLA and why I selected it as most comparable. Proximity is a little further way but still good. Age, lot size and condition are all comparable.
- **Listing 3** Due to limited inventory this property is outside the proximity. GLA is larger and superior. Age is newer but still within range and comparable. Lot size is larger and superior.

Reasons for Adjustments Why the comparable sale is superior or inferior to the subject.

- **Sold 1** This was the best comp in terms of proximity. GLA is larger and superior, condition is good and superior to the subject and why I didn't use it as the most comparable. Age and lot size are comparable. This property also has a pool.
- **Sold 2** This property is very similar to #1. Proximity is good, GLA is more comparable but still superior. Age is comparable and lot size is just slight larger making it superior.
- **Sold 3** Overall this was the best comp in terms of GLA. Proximity is further out due to limited inventory. Age, lot size and condition were all comparable

#### Report Instructions

by ClearCapital

This section shows the instructions that were approved by the customer and provided to the broker prior to completing the report. Instructions last updated: 07/29/2024

#### Purpose:

Please determine a Fair market price for this property at which it would sell in a typical marketing time for the area. Comparable Requirements:

If any of the following comparable criteria cannot be met, the commentary is required as to why you expanded your search, and what the effect on price will be.

- 1. Use comps from the same neighborhood, block or subdivision.
- 2. Use REO comparables only if the market is driven by REOs and they are comparable in characteristics and condition.
- 3. Use comps that have closed in the past 3 months to show the current market conditions. In rapidly changing markets, active listing comps should be given equal or greater weight than sold comps in your analysis. Property Condition Definitions:
- 1. Poor: Uninhabitable or severely damaged from fire, flood, vandalism or mold
- 2. Fair: Repairs needed, may not be eligible for all forms of financing, below the neighborhood average
- 3. Average: Minor cosmetic or no repairs needed; typical for the neighborhood, move-in ready but no significant updates or renovations
- 4. Good: Above average, move in ready, no repairs necessary and has recent and significant updates and/or renovations (or, for customers that do not provide for 'Average', any move-in ready property)
- 5. Excellent: Newer construction (1-5 years) or high end luxury
