Freddie Mac Form 2055 March 2005

Exterior-Only Inspection Residential Appraisal Report

58276 File # 35868681

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

UAD Version 9/2011 Page 4 of 6

Fannie Mae Form 2055 March 2005

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

Freddie Mac Form 2055 March 2005

Exterior-Only Inspection Residential Appraisal Report

58276 File # 35868681

- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

58276 File No. 35868681

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

 C^2

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

0.3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

05

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Ω 6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example

3.2 indicates three full baths and two half baths.

58276 Market Conditions Addendum to the Appraisal Report File No. 35868681 The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009. ZIP Code 80227 Property Address 11489 W Bear Creek Dr City Denver Neighbor to Neighbor Homes LLC Borrower Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc. Prior 7-12 Months Inventory Analysis Prior 4-6 Months Current - 3 Months Overall Trend Stable Stable Declining Total # of Comparable Sales (Settled) 10 Increasing Absorption Rate (Total Sales/Months) Increasing Declining 1.67 1.33 1.00 Increasing Total # of Comparable Active Listings Declining X Stable 3 3 4 Months of Housing Supply (Total Listings/Ab.Rate) Declining Stable Increasing 1.8 4.0 2.3 Median Sale & List Price, DOM, Sale/List % Prior 7-12 Months Prior 4-6 Months Current - 3 Months Overall Trend Increasing Declining Median Comparable Sale Price X Stable \$1,237,500 \$960,000 \$1,155,000 Median Comparable Sales Days on Market Declining Stable Increasing 19 68 2 Stable Declining Median Comparable List Price \$1,600,000 \$1,600,000 \$1,487,500 Increasing Median Comparable Listings Days on Market Stable 89 Declining Increasing 44 100 Median Sale Price as % of List Price X Stable Declining Increasing 100% 99% 100% Stable Seller-(developer, builder, etc.)paid financial assistance prevalent? No Declining Increasing Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo An analysis was performed on 17 competing sales over the past 12 months. For those sales, a total of 35.3% were reported to have seller concessions. This analysis shows a change of -7.5% per month. **X** No Are foreclosure sales (REO sales) a factor in the market? If yes, explain (including the trends in listings and sales of foreclosed properties). Yes An analysis was performed on 17 competing sales over the past 12 months. For those sales, a total of 0.0% were reported to be REO Cite data sources for above information. Information reported in the REColorado system (using an effective date of 08/23/2024) was utilized to arrive at the results noted on this addendum. Any percent change results noted in these comments are based on simple regression Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions This data is considered to be reliable and the amount of research to analyze this information is consistent with 'normal course of business of the local peer group. The data required for the analysis in this form is limited by the data or research features of the MLS system and is dependent upon the accuracy and timeliness of the data provided by the users of this MLS. In order to have meaningful results, it is important to have an ample sampling of competing properties to measure market changes over time. Using substitute properties only would limit the sample and could provide misleading results. Results shown above are based on a filtered study of comparable properties to the subject and are within the following search criteria: All sales activity of homes situated on lots ranging in size from 0.5-3 acres located in the entire 80227 zip code Movement of the sales price median indicates increasing market conditions, however, graphs showing trends in terms of price per sqft, indicated property values as stable, therefore, reported as such on pg. 1 If the subject is a unit in a condominium or cooperative project, complete the following: **Project Name:** Subject Project Data Current - 3 Months Prior 7–12 Months Prior 4–6 Months Overall Trend Total # of Comparable Sales (Settled) Stable Increasing Declining Absorption Rate (Total Sales/Months) Increasing Stable Declining Total # of Active Comparable Listings Stable Declining Increasing Months of Unit Supply (Total Listings/Ab.Rate) Declining Stable Increasing Are foreclosure sales (REO sales) a factor in the project? If yes, indicate the number of REO listings and explain the trends in listings and sales of Yes No foreclosed properties. Summarize the above trends and address the impact on the subject unit and project.

Legal Description

SECTION 33 TOWNSHIP 04 RANGE 69 QTR SW SUBDIVISIONCD 066600 SUBDIVISIONNAME BEAR CREEK RANCHETTES FLG 1 BLOCK 001 LOT 0006 SIZE: 53232 TRACT VALUE: 1.222 SECTION 33 TOWNSHIP 04 RANGE 69 QTR SW SIZE: 5227 VALUE: .120 KEY=047

Highest And Best Use

Due to the nature of the area, the present zoning regulations, conversion cost including demolition or the need to remodel, and return on investment, it was determined by the appraiser that the highest and best use is the subject's present use. Highest and Best Use is that reasonable and probable use that will support the highest present value, as defined, as of the effective date of the appraisal. Alternatively, it is that use, from among legally permissible, physically and reasonably possible uses, found to be economically and financially feasible, and which results in the most profitable of the alternatives. Given the current zoning, location and size of the site, surrounding land uses (recognizing the principle of conformity) and development characteristics of the market area, my opinion of the highest and best use of the property is for continued present single family residential use.

Scope of Work

The appraiser was engaged to appraise the subject. The appraiser initially used county records and MLS data to identify the subject property. The appraiser followed this research up with an exterior inspection of the subject and comparables. The appraiser is not a property inspector or engineer, nor an expert in construction, plumbing, electrical or HVAC. This appraisal is not a home inspection. Appraiser is making an extraordinary assumption that there are no specific or detailed defects in the subject.

The appraiser used MLS and county records resources for information regarding the subject, the neighborhood, and the comparables, including those not used in the report. The appraiser did not research criminal activity in neighborhood or the presence of sex offenders in the neighborhood.

The appraiser used the information obtained from the resources above to develop the sales comparison approach. From this, an opinion of value was formed.

Type of Value

The type of value determined in the this appraisal is market value.

No personal property has been included in the opinion of value.

Adverse Site Conditions

There are no known adverse easements or encroachments. No survey was provided to the appraiser. The site size is documented in county records. The dimensions were estimated based on the site size and visual inspection of the property. It was not measured as the appraiser is not a surveyor.

PDC public records may not provide a complete legal description for subject. Appraiser assumes the legal to be adequate. Appraisal user is advised to verify the legal description using title work and/or survey.

An internet generated FEMA map is included in this appraisal report and the reliability is not guaranteed. This map approximates the location of the subject. It is not intended as a survey. The appraisal user may elect to have a flood certification done to verify the FEMA zone.

Quality and Condition of Property

The assumed physical condition of the subject property was limited to an exterior observation of the subject from the street. From the street the subject appears to have been well maintained. Based on these findings, the subject was given a Q4 and a C3 rating with comparable sales selected accordingly. If interior information of the subject property is available on the MLS from a previous listing, such photos or agent narrative, this information would not be taken into consideration as without a current interior inspection made by the appraiser, it can not be determined if any recent updates have been made or any excelled depreciation has occurred from its time of sale to the effective date of this report. It is for this reason that adjustments based on interior photos and descriptions are omitted. A drive-by inspection of many recent sales in the neighborhood was performed, and I gave good consideration to the quality and condition of the exteriors in my selection of the most appropriate sales to include.

Comments on Sales Comparison

The valuation of the subject property was derived from a thorough analysis of comparable sales located within the subject's market area, which were selected based on their similarity in terms of design/architecture, upgrades, condition, size, and utility. Comparable sales that were in below average condition or rated at the lower end of Q4 were excluded, as they were found to sell for significantly less in this particular market area. The subject's market area consists of custom-built homes that exhibit a wide range of sizes, architectural appeal, age, and condition. Additionally, these homes are situated on large acre lots that vary from 0.25-1.5 acres. Consequently, even the most comparable or similar sales warranted net & gross adjustments that exceeded what is typically observed in urban and suburban neighborhoods.

There was only one relevant active listing within a 5 mile radius from the subject which was included as comp. 6.

The subject and included comps. are PUD's within the Bear Creek Ranchettes hoa. Association dues are \$20 per year which provides grounds maintenance.

For the purpose of including most relevant sales, it was necessary to provide 3 comps with a sales date exceeding 180 days prior to the effective date of this report.

All of the sales list the closed date. Time adjustments were not applied because the median sales price and the average price per square foot in the subject's neighborhood has not shown signs of decline for the last 12 months (see above under "Market Conditions").

View adjustments were based on the appraisers observation at the site and quantified by a comparison of like properties in the area with residential view vs. those with a more beneficial view such as woods and/or golf course.

Supplemental Addendum

	Cuppi	omontai Addonadm	11101	10. 33000001	
Borrower/Client	Neighbor to Neighbor Homes LLC				
Property Address	11489 W Bear Creek Dr				
City	Denver	County Jefferson	State CO	Zip Code 80227	
Lender	Wedgewood Inc				

File No. 35868681

GLA was adjusted \$140 per square foot, bathrooms at \$8,000 per half. Total basement area was adjusted at \$50 per sqft, an additional adjustment for finished basement area was applied at \$60 per sqft and basement bathrooms at \$8,000 per half. Lot sizes were adjusted \$2.50 per square foot for differences exceeding 5,000 sqft. Garage utility was adjusted at \$12,000 per car. Porches, patios and decks were adjusted at \$8,000 each. These adjustments are based the following analyses/methods: depreciated replacement cost method, aggregate differences analysis, paired sales & sensitivity analysis, which were then reconciled by the appraiser identifying consistencies through experience and peer consensus.

No bedroom count adjustments were made as some buyers may prefer larger rooms, and others quantity.

All quality and condition determinations are limited to an exterior drive-by.

Comps 4, 5 & 6 were each given an inferior quality of construction rating of Q4 and an adjustment of \$120,000 due to simple roof system and standard rectangular shape with i-relatively minimal exterior ornamentation providing an inferior aesthetic & marketability. This adjustment is supported by both a depreciated replacement cost method and sensitivity analysis.

Comparable Summary

Comparables Summary & Estimated Indicated Value

	Sale Price	Net Adj %	Grs Adj %	Ind Value	Weight
Comp #1:	1,550,000	21.7	23.8	1,886,856	21.63
Comp #2:	1,706,000	15.7	26.4	1,973,593	21.27
Comp #3:	2,150,000	20.6	29.1	1,706,545	20.89
Comp #4:	1,275,000	41.9	41.9	1,809,590	19.08
Comp #5:	1,155,000	52.8	55.6	1,764,783	17.13
Comp #6:	1,375,000	36.2	36.2	1,872,851	

ESTIMATED INDICATED VALUE OF THE SUBJECT: 1,832,000

• Indicated Weight Value

Estimated indicated value is determined by using the Gross Adjustment of sale price for each comparable as a measure of the relative quality of the comp. The Indicated Value is derived by multiplying the weight of each comp by the Adjusted Sale Price of that comp, repeating for each property, then adding them all together. This weighted average is used as the indicated value of the subject. No weight was given to comp. 6 as it is not a closed sale, rather it is a listing included solely to demonstrate that the principle of substitution was used.

As with any method, this technique is not perfect. However, it does do a very good job of giving more weight to the most similar comps while at the same time minimizing values near the extremes of the indicated value range.

The subject's indicated value is significantly higher than the predominant stated on pg. 1 of the URAR. This is due to the presence of developments within the defined market area consisting of properties of inferior quality of construction, smaller in size and situated on smaller lots. The subject is not considered to be overimproved for the area as there are a number of properties within the subject's market area similar in size and quality which have sold for as much or more than the subject's indicated value.

The adjusted sale price indicators show a sizable range from \$1,706,545 -\$1,973,593. It is assumed that if an interior inspection of the subject had been performed, comparable sales could have perhaps been more appropriately selected and adjusted for, therefore, resulting in a smaller range.

On 8/26/2024, I received a revision request from Clear Capital stating the following:

"A discrepancy was noted to exist between the address in the report and a different address, City: Lakewood, supplied by our customer. Please ensure the address entered in the report is correct. In addition, please provide commentary in the report explaining the discrepancy between the two addresses and citing your address verification data source.

Original photos are preferred; however MLS photos are acceptable for conventional loan assignments when originals cannot be obtained (MLS photos should be labeled as such)."

Appraiser's response 8/26/2024:

Both public records and USPS show the subject's city as Denver. See pages following the "Aerial Map" for a copy county records.

I have now labeled MLS photos as such.

SELL SCORE			
	Total.	Val 4 - 6'	0004 00 07 04 00 00
Rating Sell Score	High 809	Value As Of	2024-08-25 04:33:33
ESTIMATED VALUE			
RealAVM™	\$1,834,600	Confidence Score	92
RealAVM™ Range	\$1,708,000 - \$1,961,200	Forecast Standard Deviation	7

(2) The Confidence Score is a measure of the extent to which sales data, property information, and comparable sales support the property valuation analysis process. The confidence score range is 50 - 100. Clear and consistent quality and quantity of data drive higher confidence scores while lower confidence scores indicate diversity in data, lower quality and quantity of data, and/or limited similarity of the subject property to

(3) The FSD denotes confidence in an AVM estimate and uses a consistent scale and meaning to generate a standardized confidence metric. The FSD is a statistic that measures the likely range or dispersion an AVM estimate will fall within, based on the consistency of the information available to the AVM at the time of estimation. The FSD can be used to create confidence that the true value has a statistical degree of certainty.

RENTAL TRENDS			
Estimated Value	5462	Cap Rate	1.8%
Estimated Value High	7040	Forecast Standard Deviation (FSD)	0.29
Estimated Value Low	3884		

(2) The FSD denotes confidence in an Rental Trends estimate and uses a consistent scale and meaning to generate a standardized confidence metric. The FSD is a statistic that measures the likely range or dispersion a Rental Amount estimate will fall within, based on the consistency of the information available to the Rental Amount at the time of estimation. The FSD can be used to create confidence that the true value has a statistical degree of certainly.
