<b>Comments Regarding Pricing Strategy</b>		
<p>Final Value was derived from searching through ( 1 mile) radius from the subject, with +/-20% GLA and +/-10 years for Age. REO and shortsale results: (0 REO; 0 shortsale ) while FMV is (35). Due to limited similar comparables in the area, it was necessary to use comps that vary from the subject's style/design but which are valuable and similar nonetheless in regards to overall size, condition and effective use. The subject was strategically priced at the high end of the market because the high value best represents fair market value. Broker price opinion as of this date based on the current market trend, considering all factors mentioned and the subject's location is \$450,000. This report is a broker price opinion estimate of current market value on the said property. It should not be construed as an appraisal, nor used as an appraisal if an appraisal is required.</p>		

## Clear Capital Quality Assurance Comments Addendum

**Reviewer's Notes** The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.

## Addendum: Report Purpose - cont.

**Report Instructions**

This section shows the instructions that were approved by the customer and provided to the broker prior to completing the report.

Instructions last updated: 07/29/2024

**Purpose:**

Please determine a Fair market price for this property at which it would sell in a typical marketing time for the area.

**Comparable Requirements:**

If any of the following comparable criteria cannot be met, the commentary is required as to why you expanded your search, and what the effect on price will be.

1. Use comps from the same neighborhood, block or subdivision.
2. Use REO comparables only if the market is driven by REOs and they are comparable in characteristics and condition.
3. Use comps that have closed in the past 3 months to show the current market conditions. In rapidly changing markets, active listing comps should be given equal or greater weight than sold comps in your analysis.

**Property Condition Definitions:**

1. Poor: Uninhabitable or severely damaged from fire, flood, vandalism or mold
2. Fair: Repairs needed, may not be eligible for all forms of financing, below the neighborhood average
3. Average: Minor cosmetic or no repairs needed; typical for the neighborhood, move-in ready but no significant updates or renovations
4. Good: Above average, move in ready, no repairs necessary and has recent and significant updates and/or renovations (or, for customers that do not provide for 'Average', any move-in ready property)
5. Excellent: Newer construction (1-5 years) or high end luxury
