**SCOPE OF WORK:** The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

**INTENDED USE:** The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

**DEFINITION OF MARKET VALUE:** The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions\* granted by anyone associated with the sale.

\*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concessions but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

**STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS:** The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

# **Uniform Appraisal Dataset Definitions**

#### **Condition Ratings and Definitions**

C1 The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.\*

\*Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2 The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

\*Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3 The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

\*Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4 The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

\*Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5 The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

\*Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6 The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

\*Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

#### **Quality Ratings and Definitions**

**Q1** Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

**O2** Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

**O3** Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4 Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

**Q5** Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

**Q6** Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

#### Definitions of Not Updated, Updated, and Remodeled

#### Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical /functional deterioration.

#### Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

#### Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/ or expansion. A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

#### Explanation of Bathroom Count

The number of full and half baths is reported by separating the two values by a period. The full bath is represented to the left of the period. The half bath count is represented to the right of the period. Three-quarter baths are to be counted as a full bath in all cases. Quarter baths (baths that feature only toilet) are not to be included in the bathroom count.

THE APPRAISER MAKES NO WARRANTIES OR GUARANTEES EITHER EXPRESSED OR IMPLIED REGARDING THE STRUCTURAL INTEGRITY OF THE SUBJECT PROPERTY.

#### **Comments on Sales Comparison**

THE SALES COMPARISON APPROACH IS BASED ON THE PRINCIPLE OF SUBSTITUTION WHICH IS DEFINED BY THE APPRAISAL INSTITUTE AS FOLLOWS: "THE PRINCIPLE OF SUBSTITUTION AS APPLIED IN THE SALES COMPARISON APPROACH HOLDS THAT THE VALUE OF THE PROPERTY THAT IS REPLACEABLE IN THE MARKET TENDS TO BE SET BY THE COST OF ACQUIRING AN EQUALLY COMPARABLE SUBSTITUTE PROPERTY." THIS PRINCIPLE IS APPLIED USING ACCEPTED UNITS OF COMPARISON. BRACKETING IS USED TO ENSURE THAT A RANGE OF VALUE FOR THE SUBJECT PROPERTY IS REASONABLY ESTIMATED.

A METHODICAL 6 MONTH SEARCH OF THE IMMEDIATE SUBJECT AREA WAS PERFORMED FOR RECENT COMPARABLE SALES THAT HAVE OCCURRED IN THE SUBJECT'S MARKETPLACE. THIS DATA IS THEN ANALYZED TO DETERMINED WHICH OF THE PROPERTIES ARE DEEMED TO BE THE MOST SIMILAR TO THE SUBJECT IN TERMS OF LOCATION, AGE, GROSS LIVING AREA, AND ROOM CONFIGURATION. THE SEARCH PRODUCED A SUFFICIENT AMOUNT OF DATA TO PROVIDE FOR A REASONABLE ANALYSIS AND ADDENDUM

Borrower: Neighbor to Neighbor Homes LLC	File No.:	: 58518

DETERMINATION OF A VALUE INDICATION THAT CAN BE APPLIED TO THE SUBJECT PROPERTY. ALL COMPARABLES ARE LOCATED IN THE SUBJECT'S MARKET AREA, AND THEIR LOCATIONS HAVE NO EFFECT ON VALUE NOR MARKETABILITY. THE APPRAISER IS AWARE OF BOTH HIGHER AND LOWER SALES IN THE SUBJECT MARKET AREA, BUT THE COMPARABLES UTILIZED IN THIS REPORT ARE CONSIDERED BY THE APPRAISER TO BE THE BEST AVAILABLE.

ALL OF THE COMPARABLES ARE LOCATED IN THE SUBJECT MARKET AREA AND SHARE RELATIVELY SIMILAR FEATURES AS ROOM CONFIGURATION AND SIZE. NO OTHER SALES DEEMED HIGHLY COMPARABLE NOR WORTHY OF INCLUSION INTO THIS REPORT.

MARKET WARRANTED ADJUSTMENTS FOR DIFFERENCES IN FEATURES, X AND Y, WERE DETERMINED THROUGH SIMPLE REGRESSION AND SENSITIVITY ANALYSIS, AS DEFINED BELOW. USING A DATASET OF 66 SALES FROM THE MARKET AREA OVER THE PREVIOUS 12 MONTHS, REGRESSION (X) AND SENSITIVITY ANALYSIS (Y) RESULTED IN ADJUSTMENTS AS FOLLOWS:

GLA: (X) = \$248 (Y) = \$229 LOT SIZE: (X) = \$22 (Y) = 19 BATHROOMS (X) = \$26,145 (Y) = \$23,890 GARAGES (X) = \$12,890 (Y) = \$8,815 CENTRAL HEAT/ A/C: (X) = \$11,315 (Y) = \$9,155

MOST WEIGHT GIVEN TO THE REGRESSION METHOD, AS ITS BASIS ON HISTORICAL DATA APPEARS MORE CONSISTENT TO OVERALL MARKET REACTION THEN SENSITIVITY ANALYSIS.

THEREFORE, ADJUSTMENTS ARE MADE AS FOLLOWS:

PLEASE NOTE ABOVE AND BELOW GRADE BATH/GLA ADJUSTED AT SAME RATE AS ABOVE GRADE, AS THESE AREAS ARE NOTED FOR ANSI COMPLIANCE, HOWEVER MARKET RECOGNIZES ALL AS SINGLE LIVING AREA AND ROOM COUNT.

LOT SIZE ADJUSTMENTS ARE MADE AT \$20 PSF FOR DIFFERENCES GREATER THAN 2500 SF.

SQUARE FOOTAGE ADJUSTMENTS WERE CALCULATED AT \$238 PSF FOR DIFFERENCES OVER 100 SF. ROOM COUNT AND GLA INFORMATION IS OBTAINED FROM VARIOUS SOURCES INCLUDING MLS, PUBLIC RECORDS, AND DATAQUICK. IF THERE ARE ANY VARIATIONS BETWEEN WHAT IS REPORTED ON MLS AND WHAT IS OBTAINED FROM THE APPRAISER'S PUBLIC RECORD DATA SOURCE, THE GLA AND ROOM COUNT INFORMATION UTILIZED IN THE REPORT IS TAKEN FROM THE SOURCE DEEMED MOST RELIABLE BY THE APPRAISER.

FULL BATHS ADJUSTED AT \$25,000. 1/2 BATHS ADJUSTED AT \$12,500

BEDROOMS NOT ADJUSTED AS MARKET REACTION REACTS/FAVORS GLA DIFFERENCES.

GARAGES ADJUSTED AT \$10,000 PER SPACE,

CENTRAL AIR ADJUSTED AT \$10,000.

OTHER AMENITIES/FEATURES ADJUSTMENTS WERE APPLIED AS APPROPRIATE AND ARE SELF-EVIDENT. THE ADJUSTMENTS ARE BASED ON PAIRED SALES USING SYNAPSE/SPARK SOFTWARE FOR THE FOLLOWING ADJUSTMENTS: (SUPPORTED BY PAIRING SALES #1 AND #3 AND #2 AND #4):

PANORAMIC BAY VIEWS ADJUSTED AT \$250,000.

SALE #1 WARRANTS A 2.5% CONDITION ADJUSTMENT TO REFLECT MORE RECENT KITCHEN UPDATING.

SALES #2, #4 AND #5 WARRANT 5% CONDITION ADJUSTMENTS TO REFLECT MORE RECENT KITCHEN/BATH REFURBISHING.

NO TIME ADJUSTMENTS WERE WARRANTED FOR COMPARABLES #1 THROUGH #4 AS THEY REFLECT CURRENT MARKET CONDITIONS.

NO AGE ADJUSTMENTS WARRANTED AS MARKET DOES NOT APPEAR TO REACT TO DIFFERENCES IN AGE, WITH SUBJECT'S ACTUAL AGE NOT BRACKETED DUE TO LIMITED NUMBER OF SALES AND SEVERAL COMPARABLES WITHIN A FEW YEARS AS WELL AS COMPARABLES #1 AND #3 SIMILAR IN EFFECTIVE AGE. NO AFFECT ON VALUE OR MARKETABILITY.

ALL COMPARABLES HAVE SIMILAR MARKETABILTY AS THE SUBJECT PROPERTY. NO FINANCING ADJUSTMENTS WERE WARRANTED AS NO SALES REPORTED ANY FINANCING OR SALES CONCESSIONS OR CREDITS. COMPARABLES #1 THROUGH #4 ARE VERIFIED CLOSED. COMPARABLE #5 IS AN LISTING IN THE SUBJECT'S MARKET AREA. DUE TO THE UNRELIABILITY OF INITIAL LIST PRICING STRATEGIES OF AGENTS, LIST PRICES ARE CONSIDERED UNREILIABLE AND ARE, THEREFORE, EXCLUDED FROM THE WEIGHTING PROCESS IN THE RECONCILIATION OF VALUE. SINCE MOST LISTINGS SELL WELL ABOVE LIST PRICE, LISTINGS DO NOT NECESSARILY SET THE UPPER END OF MARKET RANGE.

# The Indicated Value by Sales Comparison Approach, \$2,049,000, is calculated using the following weights: 31.6% - 2029 Lyon Ave; Sale Price \$2,101,000; Adjusted Value \$2,048,450; Gross Adj: 2.5% 26.7% - 2021 Mezes Ave; Sale Price \$2,138,000; Adjusted Value \$2,129,100; Gross Adj: 9.6% 31.7% - 2806 San Ardo Way; Sale Price \$2,000,000; Adjusted Value \$2,002,500; Gross Adj: 2.4%

COMPARABLE #4 EXCEEDS STANDARD NET AND/OR GROSS ADJUSTMENT GUIDELINES AND LINE ITEM GUIELINES AND EXCCEDS SUBJECT GLA BY MORE THAN 25% DUE TO THE NECESSARY MARKET EXTRACTED ADJUSTMENTS WHICH ARE NECESSARY AND TYPICAL FOR THIS MARKET BASED ON MARKET EXTRACTED MATCH PAIRED SALES AND IS USED PRIMARILY TO DEMONSTRATE MARKET ACCEPTANCE OF HOMES WITH 5 BEDROOMS.

#### SINGLE FAMILY HOUSING -- PRICE AND AGE:

THE APPRAISER INDICATES THE PRICE RANGE AND PREDOMINANT PRICE OF PROPERTIES IN THE SUBJECT NEIGHBORHOOD. THE PRICE RANGE MUST REFLECT HIGH AND LOW PREVAILING PRICES OF SINGLE FAMILY HOMES, HOWEVER, ISOLATED HIGH AND LOW EXTREMES SHOULD BE EXCLUDED FROM THE RANGE. THE PREDOMINANT PRICE IS THAT WHICH IS THE MOST COMMON OR MOST FREQUENTLY FOUND IN THE NEIGHBORHOOD (I.E, THE MODE, NOT THE MEAN NOR THE MEDIAN).

#### PHOTOS:

AGE ADJUSTMENTS WERE NOT MADE FOR EFFECTIVE AGE OF THE COMPARABLES AS COMPARED TO THAT OF THE SUBJECT AS THEY WERE MINIMAL AND COMMONLY OVERLOOKED IN THE MARKET.

#### UNITS OF COMPARISON:

USE OF STANDARD UNITS MAKES IT POSSIBLE TO DIRECTLY COMPARE SITES WHICH VARY IN SHAPE AND SIZE. VARIATIONS IN SIZE BY BE ACCOUNTED FOR BY REDUCING THE VALUATION ANALYSIS TO A UNIT BASIS.
